The to Mr. Allen, but the Populist National Comnitiee (Senator Butler, of North Caro-ina), declined to necept it. Thereupon, t the suggestion of Mr. Bryan, Mr. Allen yested the amount rested the amount to be used in the

M'KINLEY'S RECORD.

r. Stewart, of Nevada, thought these leisms of Mr. Bryan were most unfair, said the Senator, an examination of McKinley's record would show him love voted for the free and unlimited use of sliver.

Tiewart stated that during the confation of the Bland-Allison act Mr. Kinley had voted at every stage with most radical Sliver men. "Even as as 189, Mr. McKinley had made a coh at Toledo, denouncing Mr. Clevetor of discriminating between the two als."

Stewart caused a laugh as he closed aying very earnestly that it "was no criticising Bryan, as he's going to be next President."
he vote was then taken on Mr. Quay's
fon to table the committee amendths to paragraph 357, and it was re-

concerning Mr. Bryan. The latter's vote for free wool would not justify the assertion of the Massachusetts Senator that Mr. Bryan would veto a tariff bill, as he might approve it as a revenue measure.

Mr. Hoar interjected the remark that he had not intended to sir up senators, but had merely pointed out that the present friends of the tariff bill were compelled to secure the co-operation of senators who had voted for a free-trade candidate, and would probably vote for that and idate again.

Am. Teller, continuing, declared that the Massachusetts Senator had dragged in a political question, for the evident purpose of challenging the position of certain senators. As for himself, he wanted this bill passed. He did not believe it would bring the relief expected. He was here to see that a decent bill was enacted. He was not here to delay, for if there was any relief, it should come quickly. But if the Massachusetts Senator desired to bring in political questions, Mr. Teller gave notice that there would be full reply.

With this flurry over, Mr. Quay remarked that the Finance Committee seemed to "have pulled likelf together since yesterday," and, in view of the defeat of his former motion, he moved an amendment increasing the committee rate from 10 to 12 cents per pound. Disagreed to, without division.

The paragraph was then agreed to as reported—namely, 4 cents per pound on third-class wool, worth 10 cents per pound on third-class wool, worth 10 cents per pound on third-class wool worth 10 cents per pound on third-class wool worth 10 cents per pound.

norted-namely, 4 cents per pound on ird-class wool, worth 10 cents per pound less. Paragraph 358 was also agreed as reported, fixing the rate on third-ass wool valued at over 10 cents per and 217 cents per pound.

NEW PARAGRAPHS. NEW PARAGRAPHS.

A new paragraph (360) was substituted, on motion of Mr. Allison, giving a universe duty of 30 cents per pound on top vaste, slubbing waste, roving waste, ring vaste, and garneted waste.

A new paragraph was substituted for 58, making the duty on wools on the skin cent less per pound than on other wools of the same class and condition.

Another new paragraph (380 1-2) provides duty on shoddy of 25 cents per pound; m waste, not provided for, 20 cents per round.

bound.

Mr. Vest here interposed a motion to strike out the entire wool schedule up to the point reached, covering the parastaph on raw wool. The motion was disagreed to. Mr. McEnery (Democrat) and Messis, Teller and Mantle voted with the Republicans against the motion.

Paragraphs 351 (rags) and 362 (wool and mail were agreed to as reported.

On paragraph 353 (wool yarns) Mr. Jones moved a proviso that the rate shall not go into effect until twelve months after the net goes into operation, Disagreed to—19 to 17.

Mr. Jones moved an amendment to Mr. Jones moved an amendment to tragraph 364, limiting its provisions to oth, etc., of which wool is the chief imponent material, in place of "wholly in part of wost".

exts.
The naragraph finally went over without vote on Mr. Jones's amendment, and t 5:29 P. M. the Senate held an executive session, adjourning soon afterward. The House was not in session to-day.

The outside interest in the market shows a large increase, and commission-houses report a great accession of orders of a speculative character, following the solid investment buying that has been going

on for some time, and which, to-day's developments indicate, is still going on. The buying was almost wholly the result of confidence in the general outlook for business.

There was little news accompanying the upward movement of prices, and therefore, little to record, beyond the mere changes in prices. Good buying continued in Northwest. The Grangers were all in keen demand, and showed a substantial gain on the day. The same was true of all western and southwest or railroad properties, where the crops promise to be abundant, and to bring business improvement all through those sections.
